

APPENDIX D
MINOR INJURY GUIDELINE (MIG) CODES FOR OCF-23 AND OCF-21C

When managing patients who are eligible for treatment under the MIG, Health Care Facilities must use the OCF-23 Treatment Confirmation form prior to treatment and the OCF-21C to invoice for treatment.

There are distinct codes available for use with patients who will be or have been treated under the MIG. The codes supplied in this document are separated into two sections:

1. Codes required to complete OCF-23
2. Codes required to complete OCF-21C

Part 10 (Guideline Services) of the OCF-23 requires a description of the kind of *Guideline* that will be delivered to your patient. At the time of publication, the only Guideline in force is the **Minor Injury**.

Radiology Codes

If proposing or invoicing for radiology services, specific codes should be used when completing an OCF-23 or OCF-21. These codes are used in the following sections:

- OCF-23 – Part 10: Guideline Services
- OCF-21C – Part 6: Goods and Services Rendered

When completing Part 10 on an OCF-23 in which x-ray services are proposed or Part 6 on an OCF-21C, facilities must remember to provide the attribute code representing the number of views. The CCI code, attribute codes and maximum fee payable are shown in the table below:

Attribute Codes for X-Ray of Spinal Vertebrae and MIG

	CCI Code	Attribute	Max Fee Payable (Feb 1, 2014)
