

## Appendix F – Unit Measures

### *Document Change History*

Date	Description of Change
20030930	Initial Publication
20080213	Update

**GD – Goods and Supplies**

Unit measure for products purchased by the claimant from the provider to assist in the management of the claimant’s injury(ies); i.e. canes, splints, bath seats, theraband etc. If the code contains G, as in GXX01, the measure must be GD.

**HR – Hour**

Unit measure for services where duration varies depending on the nature of the claimant’s injury or the application; i.e. Ultrasound, exercise, mobilization, telephone consultation. If the code contains TT, as in AXXTT, the measure must be HR

**KM – Kilometre**

Unit measure for travel expenses. If the code contains KM, as in AXXKM., the measure must be KM.

**PG – Page**

Unit measure for reports, letters and documentation other than OCF forms submitted to the insurer.

**PR - Procedure**

Unit measure for a service for which there is a standardized process of delivery which neither varies in application or time; i.e. x-ray, manipulation, missed appointment etc.

**SN – Session**

Unit measure for a physical rehabilitation session for which the provider has combined interventions that will be rendered each visit, as in SZZPR.

### **Minutes to Hour Conversion Table**

Minutes (quantity)	Hours
5	.08 hr
10	.17 hr
15	.25 hr
20	.33 hr
30	.50 hr
40	.67 hr
45	.75 hr
50	.83 hr
60	1.0 hr
